Ozone Depletion Prevention

Is your ODP Card valid? You Can't purchase refrigerants without it.

Here's a one-day course to get you certified!

This Ontario government recognized Heating, Refrigeration and Air Conditioning Institutes (HRAI) program, provides the student with the Ozone Depletion Prevention Card (ODP). This card is mandatory for all personnel working with ozone depleting substances.

Who should attend?

Anyone refilling, servicing or repairing refrigeration equipment or handling refrigerants Suitable for residential commercial, industrial, domestic, automotive and mobile applications.

What you'll learn

Based on Environment Canada's "Code of Practice for Reducing CFC Emissions in Refrigeration and Air Conditioning Systems", the course and the Participants Manual supplied deal with environmentally correct equipment design and proper handling of CFC/HCFC/HFC's. It will prepare the participants for complying with provincial regulations covering refrigeration and air conditioning systems. Specific topics covered are: CFC's and the ozone layer; isolation valving; recommended components; leak detection methods; system charging procedures; special maintenance provisions, refrigerant recovery, reuse, recycling and reclamation equipment.

Seminar Content:
